

Family Nurse Practitioner Residency Training Program

The HealthLinc NP Residency class begins September 2018. This 12-month program will provide intensive training on both the clinical complexity of family practice in the safety net setting and on a high-performance, PCMH model for primary care. The program is specifically intended for new Family Nurse Practitioners who are committed to practice careers as PCPs in the challenging setting of community health centers and other safety net settings.

We are accepting applications for the 2018–2019 residency class. **Application deadline: April 30, 2018.**

Qualifications: Recent graduates (within 18 months) of Masters or DNP programs, certified or board eligible as FNP, bilingual candidates preferred.

The residency is a full-time, 12-month salaried position with benefits. The program structure includes precepted primary care sessions, specialty rotations, mentored independent clinics and didactic sessions.
